

## **RON GRADY**

Ron Grady, M.S.Ed., is an early childhood educator with a passion for child-centered and constructivist methodologies. He encourages children to learn through art, nature, and play and enjoys exploring the ways that these connect to deep processes of creative, personal, and academic inquiry. He began working with children in undergrad, where he worked on projects focused on children's social and cognitive development. As he made repeated visits to his institution's lab school, he found himself drawn to the life he found within the classrooms and ever since then he has been devoted to integrating these two loves. Ron has worked in a variety of settings with children all throughout the early childhood range and presented his work at many conferences as well as to teachers in his home city.
